

**STANDARD CHLORINE CHEMICAL CO. INC. SUPERFUND SITE
MONTHLY PROGRESS REPORT
SEPTEMBER 2013**

I. Actions Completed During the Reporting Period (September 2013)

On September 12, 2013 and September 17, 2013, EPA issued comments on the July 25, 2013 revised RI/FFS Work Plan.

On September 26, 2013, the EPA was notified of the selection of the subcontractor Eurofins Lancaster Labs Environmental for hexavalent chromium analysis and a request to change the analytical method for analysis of 1,3,5-trichlorobenzene from EPA Method 8121 to Method 8260B.

The RI/FFS Work Plan was revised to address EPA comments and additional modifications were incorporated to the Work Plan and QAPP subsequent to EPA's concurrence regarding the change to the analytical method for 1,3,5-trichlorobenzene and the selection of Lancaster Labs for the hexavalent chromium analysis. On September 27, 2013, a final RI/FFS Work Plan along with appendices was issued.

On September 27, 2013, EPA issued the approval letter for the September 2013 RI/FFS Work Plan.

On September 27, 2013, the EPA was notified of a targeted start date of October 14, 2013 for the start of the RI field activities.

II. Results of Sampling and Tests and Data Received by Respondents

None for this Reporting Period.

III. Work Planned for the Next Two Months (October and November 2013)

Monthly progress reports will be prepared and submitted to EPA.

Implementation of the RI/FFS Work Plan will be initiated.

IV. Problems Encountered/Anticipated Delays

None for this Reporting Period.

V. Operations and Maintenance Information

Routine operations and maintenance activities were completed. A summary of operations and maintenance activities will be provided on a quarterly basis. The next quarterly summary will be appended to the October 2013 progress report.
